PA Home Energy Conference 2009

March 18 - 19

Penn Stater Conference Center Hotel
State College, PA

Conference starts at 1:00 PM on March 18

PA Home Energy is a new program that is focused on helping Pennsylvania consumers reduce their home energy use. The program integrates the general principles of whole house performance with green home design.

This conference brought to you by

www.pahomeenergy.org

www.wppsef.org

www.affordablecomfort.org

Change is coming to Pennsylvania.

www.pahomeenergy.org

The demand for energy efficiency, the economy, and environmental concerns is transforming our jobs and the way that we work.

Don't be left behind!

Interest in green building technology and energy efficiency is at an all time high. The PA Home Energy program connects consumers with energy consultants and qualified service providers who rate the construction of new homes, or make energy improvements to existing homes. At the heart of the program is ENERGY STAR®, a powerful and widely recognized national brand.

Attend the PA Home Energy Conference 2009

- Become an expert in diagnosing and improving a home's energy efficiency, air quality, and comfort - with bigger jobs and higher profits
- Meet successful contractors, builders, and raters who have transformed their businesses using the Home Performance with ENERGY STAR® and ENERGY STAR® Qualified Homes programs
- See diagnostic tools in action and talk with product vendors who can help you solve problems for your customers
- Find resources to help with marketing and sales

Service Providers Find support, get answers, and gain profits while improving your "whole house" home performance expertise. Become the local expert in diagnosing and fixing a home's energy, health, and comfort issues. Discover how new PA legislation can impact, improve, and grow your business, and learn how to help your customers solve and finance their energy efficiency problems.

Contractors, Remodelers, & Builders Learn how to meet the demand for energy efficient, green homes and get information on new business opportunities, programs, and incentives available in Pennsylvania.

Developers Learn about the benefits of developing ENERGY STAR Qualified Homes and network with ENERGY STAR builders and contractors.

Realtors Learn how to differentiate your business in this tough economy, and meet your clients' green energy needs by becoming an ENERGY STAR expert and showcasing ENERGY STAR homes.

PA Home Performance 101

The House as a System

Thursday, March 19

8:15 AM – 3:35 PM

A Full Day Session for Keystone HELP Contractors

Pennsylvania's new energy conservation and energy efficiency legislation will provide plenty of opportunities for home performance businesses and contractors. PA Home Performance 101 will give a one-day introduction to home performance concepts and related programs / incentives for current and prospective Keystone HELP contractors and remodelers.

Enrollment is mandatory to qualify for preferred interest rate loans for your customers in Tier 2 Keystone HELP Financing.

- Learn the “house as a system” approach to energy conservation and energy efficiency
- Be able to integrate the “house as a system” approach into your business model
- Understand the market forces affecting homeowners (consumer demand, utility rate caps, energy cost volatility, national security, climate change policy, etc.)
 - Keystone HELP
 - State Incentives (DEP, PHFA, AEPS, Act 129, etc.)
 - PA Home Energy
 - Federal incentives

Mark Fortney, Director, Pennsylvania Housing Research Center (PHRC), Penn State University

Kathy Greely, Program Manager, PA Home Energy, Performance Systems Development

Tamasin Sterner, Owner / Founder, Pure Energy
